● QUALITIES

- Creative
- Public Speaker
- Hardworking
- Thoughtful
- Multitasker

● EDUCATION

— Enib

A-2 : Prepa intégrée
2024 - 2025

A-1 : Prepa intégrée
2023 - 2024

— Lycée Chaptal

Bac général
SPE Sciences de l'ingénieur
2020 - 2023

● LANGUAGES

French
English (B2)
German

● ABOUT ME

I'm a driven student in my second year at the École Nationale d'Ingénieurs de Brest, where I study computer science and engineering. I have worked on a variety of engineering projects and am passionate about cutting-edge technology and technical solutions. I have proven to be a great problem-solver, creative thinker, and team player. I spend a large portion of my free time working on a range of technological projects, constantly learning new things and expanding my knowledge. In order to preserve a flexible and diverse profile, I intend to specialize in mechatronics. I am dedicated to creating creative and effective solutions and am self-reliant, proactive, and willing to learn.

● EXPERIENCES

— Chambre de Métiers et de l'Artisanat

Stage - 1 month internship 2024 - 2025

- Various tasks related to technical and IT maintenance in a company (ghosting, optimization, updates, etc.).

— Ecole Nationale d'Ingénieur de Brest

Semestrial Project 2023 - 2025

- As part of my studies, the subjects covered are applied through projects, allowing for a better understanding and practical use of engineering tools.

— Sciences de l'ingénieur - lycée

Olympiade des sciences de l'ingénieur 2020 - 2023

- Creator of UpStair project allowing disabled people to use stairs thanks to an elevating stair-case.

● SKILLS

Programming

Python / HTML / CSS / Java / Rust / C / C+

Electronics

Knowledge and use of electronic tools independently.
Repair of technological devices.

Mechanics

3D skills (SolidWorks / Catia) > 500h
